

# Client Feedback

Wondering what it's like to work with me? I asked a few of my recent clients and here's what they said.

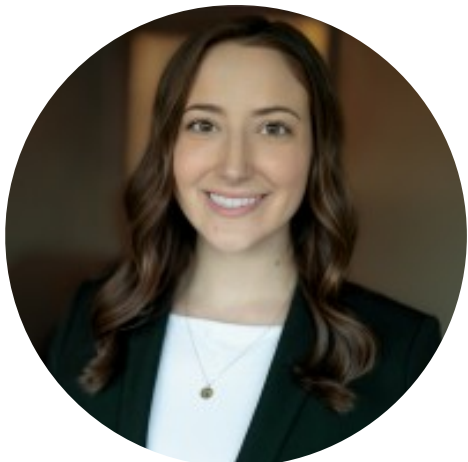

"Colleen was great at balancing execution and strategy - always delivering projects as needed while also bringing new ideas to the team. She was also able to leverage other resources in her network to bring ideas to life on a tight budget and timeline. She is a fun and supportive teammate to boot!"

Amber Picotte  
Fractional CMO

"Colleen is of course a fantastic marketer and content machine, but also a great human being. She has been instrumental in helping to shape our marketing strategy. Her intelligence and quick learning ability have allowed her to pick up topics quickly, turning them into engaging, valuable content that resonates with our audience."

Greg Wise  
Co-Founder and CCO at OneScreen.ai

"Colleen has the unique ability to create compelling, engaging content that ties back to your business's value proposition without feeling too promotional. She can hit the ground running and quickly understand a business's unique selling points with little training. She is an incredible marketer and also extremely fun to work with!"
